SUMMARY

Computer Science Engineering undergraduate with a CGPA of 8.5 and a strong foundation in software development, programming, and database management. Experienced in developing AI-based, cloud-enabled, and web applications through academic projects using Python, SQL, and Microsoft Azure. Interested in artificial intelligence, software engineering, and game development, with a commitment to continuously strengthening technical expertise and problem-solving abilities.

EDUCATION

Bachelor of Technology (B. Tech) in Computer Science Engineering
NRI Institute of Technology (Deemed to be University), Andhra Pradesh
CGPA: 8.5/10
Expected Graduation: 2027

SKILLS

Programming Languages: Python, Java, C
Web Technologies: HTML, CSS, JavaScript
Database: SQL
Tools & Platforms: VS Code, GitHub, Microsoft Azure
Core Concepts: Data Structures, Database Management Systems (DBMS), Operating Systems, Object-Oriented Programming (OOP)

INTERNSHIP EXPERIENCE

Artificial Intelligence Azure Intern | Edunet Foundation, AICTE & Microsoft May 2025 – June 2025

- Developed an AI-powered Dyslexia Assistant using Microsoft Azure services.
- Integrated speech-to-text and text-to-speech functionalities to improve accessibility.
- Utilized cloud-based AI services for language processing and user interaction.
- Gained hands-on experience in Azure-based AI application development.

Artificial Intelligence & Data Analytics Intern | Edunet Foundation, AICTE & Shell April 2025

- Worked on AI and data analytics concepts through project-based learning.
- Developed a Forest Fire Detection system using deep learning techniques.
- Performed data preprocessing, model training, and evaluation for image classification.
- Applied machine learning concepts to address real-world environmental challenges.

PROJECTS

Interactive Portfolio Website | HTML, CSS, JavaScript

- Developing an interactive portfolio website designed with a game-inspired navigation system.
- Showcasing projects, technical skills, certifications, and achievements through an engaging user experience.
- Implementing responsive design principles and interactive UI elements to improve accessibility and usability.
- Focusing on creative web design while maintaining professional presentation standards.

Student Feedback System | HTML, CSS, JavaScript, SQL

- Developed a web-based student feedback system for collecting and managing feedback efficiently.
- Implemented user authentication, login validation, and secure data submission features.
- Designed a responsive and user-friendly interface to enhance accessibility and usability.
- Utilized SQL for storing and managing feedback records.

CERTIFICATES

Salesforce Agentforce Specialist | Salesforce | 2025
Quantum Fundamentals Program | WISER & Qubitech | 2026
AI Fundamentals | IBM SkillsBuild | 2025
Principles of Generative AI | Infosys Springboard | 2025
Artificial Intelligence Primer | Infosys Springboard | 2025
